HOW TO USE THIS CURRICULUM

Step 1 — Know Your Level

Level	Who You Are	Start Here
All personnel	Soldier, officer, or Civilian accessing MSS for data consumption	SL 1
All staff (light builders)	Building dashboards, forms, or basic pipelines	SL 2 (prereq: SL 1)
Data-adjacent specialists	17/25-series, S6/G6, G2, operational data analysts	SL 3 (prereq: SL 2)
WFF functional staff	Assigned to INT, FIRES, M2, SUST, PROTECTION, or MC	SL 4A–F (prereq: SL 3)
Technical specialists	Writing code, building external apps, ML models	SL 4G–O (prereq: SL 3)
Senior leaders (O-5+, CSM+)	Commanding or directing a data-capable formation	Data Literacy for Senior Leaders

Level	Who You Are	Start Here
Instructor candidates	C2DAO-selected, SL 3 certified	T3-I (prereq: SL 3 + C2DAO selection)
Unit data trainers	CDR-nominated, SL 2 certified	T3-F (prereq: SL 2 + CDR nomination)
All — background reading	Pre-MSS data concepts foundation	Data Literacy Technical Reference

SL 4 Disambiguation: Two distinct sub-series share the SL 4 designation. - **SL 4A–F** — Warfighting Function tracks. Prereq: SL 3. No coding required. Audience: functional WFF staff. - **SL 4G–O** — Technical Specialist tracks. Prereq: SL 3. Audience: engineers, analysts, and data professionals.

Confirm your sub-series against your role before enrolling.

TRAINING LEVEL DESCRIPTIONS

SL 1 — Maven User

Audience: All personnel. **Prereq:** None.

Competencies: CAC-based login; platform navigation; Workshop application use; authorized Action execution; Contour/Quiver no-code analysis; AIP/Agent interfaces; classification handling; access troubleshooting.

SL 2 — Builder

Audience: All staff. **Prereq:** SL 1.

Competencies: Foundry project creation via Compass UI; Pipeline Builder visual ETL; Ontology Manager Object Types and Link Types via UI; Action Editor; Workshop application build and publish; project permissions management; Foundry branching via UI; USAREUR-AF naming conventions.

SL 3 — Advanced Builder

Audience: Data-adjacent specialists (17/25-series, S6/G6, G2). **Prereq:** SL 1, SL 2.

Competencies: Multi-page Workshop with conditional logic and variable passing; advanced Pipeline Builder multi-source joins and aggregations; Ontology design (Object Types, Link Types, Actions) via UI; advanced Contour/Quiver; AIP Logic workflow configuration (not authoring); data lineage review; governance workflows; branching and production promotion; C2DAO governance standards.

SL 4A–F — Warfighting Function Tracks

Prereq: SL 3. No coding required.

Track	WFF	Audience	Focus
SL 4A	Intelligence	G2/S2 staff, targeting officers, all-source analysts	Collection management, targeting, all-source analysis workflows
SL 4B	Fires	FSE, fire support officers, targeting teams	Targeting data, effects assessment, fire support coordination
SL 4C	Movement & Maneuver	G3/S3 maneuver staff	Maneuver tracking, route analysis, operational visualization
SL 4D	Sustainment	G4/S4, logistics staff	Logistics visibility, supply chain analytics, readiness tracking

DRAFT

Track	WFF	Audience	Focus
SL 4E	Protection	Force protection, CBRN staff	Threat tracking, vulnerability assessment, protection COA support
SL 4F	Mission Command	C2/MC staff, battle captains	Operational dashboards, CCIR management, battle rhythm products

SL 4G–O — Technical Specialist Tracks

Prereq: SL 3.

Track	Audience	Key Competencies
SL 4G ORSA	FA49, quantitative analysts	Code Workspaces (Python/R); regression, classification, time series, Monte Carlo, linear programming; wargame data architecture; analytical decision support products
SL 4H AI Engineer	AI/ML specialists	AIP Logic authoring; Agent Studio; LLM integration (RAG, ontology grounding); AI safety gates; Python transforms for AI consumption; production deployment and monitoring
SL 4M ML Engineer	MLEs, data scientists	Code Workspace model dev; model versioning and experiment tracking; production deployment and Ontology integration; MLOps patterns; responsible AI documentation
SL 4J Program Manager	PMs, G8/S8	Agile PM (Scrum/Kanban) for data/AI; user stories for data products; ML/AI lifecycle management; sprint tracking dashboards; change management and user adoption
SL 4K Knowledge Manager	KMOs, 37F	AAR capture systems; lessons-learned ingestion pipelines; AIP Logic for knowledge summarization; semantic search systems; doctrine/SOP version control; expertise registries
SL 4L Software Engineer	SWEs	OSDK (TypeScript/Python); Foundry Platform SDK; TypeScript Functions on Objects; Action validators; Slate applications; USAREUR-AF code review and deployment standards
SL 4N UI/UX Designer	UI/UX designers (ASF)	Foundry UI patterns; Workshop layout and UX; user research for data products; design systems; accessibility; prototype-to-production handoff
SL 4O Platform Engineer	Platform engineers (ASF)	Foundry platform administration; compute resource management; data connection architecture; security and access control; environment management; CI/CD for Foundry

DRAFT

NOTE — SL 4J/SL 4K Prereq: SL 3 is required (not recommended) for both SL 4J and SL 4K. Route all PMs and KMOs through SL 3 before enrolling in SL 4J or SL 4K regardless of whether their teams write code. Consult the ENROLLMENT_SOP for waiver procedures.

T3 — Train-the-Trainer

Outside the SL 1 to SL 5 numbering chain. Own T3-I/T3-F designation.

Track	Prereq	Duration	Audience	Output
T3-I Instructor Certification	SL 3 + C2DAO selection	5 days (classroom + practicum)	C2DAO-selected instructor candidates	Certified Instructor
T3-F MSC Force Multiplier	SL 2 + CDR nomination	Half day	CDR-nominated unit personnel	Unit Data Trainer (UDT)
