HOW TO USE THIS CURRICULUM

Step 1 — Know Your Level

Level	Who You Are	Start Here
All personnel	Soldier, officer, or civilian accessing MSS for data consumption	TM-10
All staff (light builders)	Building dashboards, forms, or basic pipelines	TM-20 (prereq: TM-10)
Data-adjacent specialists	17/25-series, S6/G6, G2/G9, operational data analysts	TM-30 (prereq: TM-20)
WFF functional staff	Assigned to INT, FIRES, M2, SUST, PROTECTION, or MC	TM-40A–F (prereq: TM-20)
Technical specialists	Writing code, building external apps, ML models	TM-40G–L (prereq: TM-30)
Senior leaders (O-5+, CSM+)	Commanding or directing a data-capable formation	Data Literacy for Senior Leaders
All — background reading	Pre-MSS data concepts foundation	Data Literacy Technical Reference

DRAFT

TM-40 Disambiguation: Two distinct sub-series share the TM-40 designation. - **TM-40A–F** — Warfighting Function tracks. Prereq: TM-20. No coding required. Audience: functional WFF staff. - **TM-40G–L** — Technical Specialist tracks. Prereq: TM-30. Audience: engineers, analysts, and data professionals.

Confirm your sub-series against your role before enrolling.

Step 2 — Follow the Learning Path

TRAINING LEVEL DESCRIPTIONS

TM-10 — Maven User

Audience: All personnel. **Prereq:** None.

Competencies: CAC-based login; platform navigation; Workshop application use; authorized Action execution; Contour/Quiver no-code analysis; AIP/Agent interfaces; classification handling; access troubleshooting.

TM-20 — Builder

Audience: All staff. **Prereq:** TM-10.

Competencies: Foundry project creation via Compass UI; Pipeline Builder visual ETL; Ontology Manager Object Types and Link Types via UI; Action Editor; Workshop application build and publish; project permissions management; Foundry branching via UI; USAREUR-AF naming conventions.

TM-30 — Advanced Builder

Audience: Data-adjacent specialists (17/25-series, S6/G6, G2/G9). **Prereq:** TM-10, TM-20.

Competencies: Multi-page Workshop with conditional logic and variable passing; advanced Pipeline Builder multi-source joins and aggregations; Ontology design (Object Types, Link Types, Actions) via UI; advanced Contour/Quiver; AIP Logic workflow configuration (not authoring); data lineage review; governance workflows; branching and production promotion; C2DAO governance standards.

TM-40A–F — Warfighting Function Tracks

Prereq: TM-20. No coding required.

Track	WFF	Audience	Focus
TM-40A	Intelligence	G2/S2 staff, targeting officers, all-source analysts	Collection management, targeting, all-source analysis workflows
TM-40B	Fires	FSE, fire support officers, targeting teams	Targeting data, effects assessment, fire support coordination
TM-40C	Movement & Maneuver	G3/S3 maneuver staff	Maneuver tracking, route analysis, operational visualization
TM-40D	Sustainment	G4/S4, logistics staff	Logistics visibility, supply chain analytics, readiness tracking
TM-40E	Protection	Force protection, CBRN staff	Threat tracking, vulnerability assessment, protection COA support
TM-40F	Mission Command	C2/MC staff, battle captains	Operational dashboards, CCIR management, battle rhythm products

TM-40G–L — Technical Specialist Tracks

Prereq: TM-30.

DRAFT

Track	Audience	Key Competencies
TM-40G ORSA	FA49, quantitative analysts	Code Workspaces (Python/R); regression, classification, time series, Monte Carlo, linear programming; wargame data architecture; analytical decision support products
TM-40H AI Engineer	AI/ML specialists	AIP Logic authoring; Agent Studio; LLM integration (RAG, ontology grounding); AI safety gates; Python transforms for AI consumption; production deployment and monitoring
TM-40I ML Engineer	MLEs, data scientists	Code Workspace model dev; model versioning and experiment tracking; production deployment and Ontology integration; MLOps patterns; responsible AI documentation
TM-40J Program Manager	PMs, G8/S8	Agile PM (Scrum/Kanban) for data/AI; user stories for data products; ML/AI lifecycle management; sprint tracking dashboards; change management and user adoption
TM-40K Knowledge Manager	KMOs, 37F	AAR capture systems; lessons-learned ingestion pipelines; AIP Logic for knowledge summarization; semantic search systems; doctrine/SOP version control; expertise registries
TM-40L Software Engineer	SWEs	OSDK (TypeScript/Python); Foundry Platform SDK; TypeScript Functions on Objects; Action validators; Slate applications; USAREUR-AF code review and deployment standards

NOTE — TM-40J/TM-40K Prereq Variance: The MTP lists TM-20 as the minimum prereq for TM-40J and TM-40K. The respective syllabi list TM-30. Route technical PMs and KMOs who will oversee code-writing teams through TM-30 first. PMs/KMOs overseeing no-code or builder-level teams may proceed from TM-20.
