MAVEN SMART SYSTEM (MSS) TRAINING PROGRAM — FY2026

USAREUR-AF Operational Data Team — C2DAO

Fiscal Year	FY2026 (Oct 2025 – Sep 2026)

SCHEDULING PRINCIPLES

Principle	Policy
Course Sequencing	TM-10 offered monthly; higher levels quarterly or semi-annually. Enroll in sequence — a unit cannot enroll in TM-20 until TM-10 is complete.
Access Provisioning Lead Time	Begin provisioning at or before the published lead times in the CAD. Training does not move for access issues.
Quota Allocation	Quotas allocated by unit based on authorized strength and operational role. Unfilled quotas may be reallocated at T-10 days. Contact C2DAO Training POC for current availability.
Training Freezes	Schedule suspended or reduced during major exercises (DEFENDER series, IRON WOLF, etc.) and holiday block leave. Specific freeze dates published in USAREUR-AF G3/G37 training calendar.
Schedule Changes	C2DAO provides 30-day notice of course cancellation. Units maintain a waitlist for each enrolled course to rapidly refill cancelled seats.
